

SHADE FOR BAY VIEW HOTEL - SOUTH AUSTRALIA

Commercial quality shade is provided by these three Q*14 Quartet Flexshades® linked together. Patrons can relax in comfort at this Art Deco style hotel, knowing that these permanent robust umbrellas are engineered for 100mph (160kph) wind loads.

The smooth taut membrane is Premium Tedlar fabric, which reflects the heat and UV rays, as well as being self-cleaning and durable. The high strength steel frames are Triplex coated to protect the steel from harsh weather conditions. All the Duralloy powder coat colours are available on the Flexshade® range.

Besides the Quartet, other styles available are the Hypar, Lotus, Auto, Tetra and the new Quad range. Sizes available are from 2m to 15m.

This Flexshade® structure is manufactured to Tension Spans' high technical standards, and carries a 10 year warranty.

S.A. Representative, Shadeform Sails installed these Flexshade® structures with lighting kits to cater for night functions.
