

Introducing

Flexshade[®] Retractable Roof

This remotely controlled modular retractable roof is superbly suited to a wide range of residential and commercial applications.

From patios, to swimming pools and restaurants, this system will provide year round sun and weather protection at the touch of a button.

Extended and tensioned it can handle high winds and rain keeping your space dry and secure. When folded away it tucks neatly under a weatherproof cover.

With the aluminium powder coated sections and quality tensile membrane fabric the retractable roof has superior durability in our harsh climate.

With an engineered support structure the retractable roof can retract up to 10m, and its modular setup makes the length almost unlimited.

A 10 year structural warranty is standard.*

Colours

Frame: All RAL/Dulux powdercoat colours

Membrane: Up to 24 standard colours**

* Manufacturers warranty on Mechanical parts

** Subject to Availability
