

## **WATERFRONT VIEWS**

**Both of these attractive Flexshade® Quartet structures provide UV protection and rain proofing to this outdoor setting.**

**The Q\*14'S' side column structure is suitable for this seating area where space is limited. The attractive centre column Flexshade® Quartet Q\*5M is located next to the pool.**

**Both Flexshades® have Tedlar Translucent membranes, which reflect heat, and are durable and robust, rated to 160km per hour wind loads. The frames are Triplex powder coated to protect the steel from the canal water exposure, while maintaining a 10 year warranty.**

**Representative Amazing Shades have installed both of these Flexshade® structures on the Gold Coast.**
